¿CUÁNTO VALE LA SUMA DE  
DE LOS PRIMEROS  $n$  TÉRMINOS  
DE UNA PROGRESIÓN GEOMÉTRICA?

$$a, ar, ar^2, \dots, ar^{n-1}$$

$a_1, a_2, a_3, \dots, a_n$

The diagram illustrates a geometric progression with terms  $a, ar, ar^2, \dots, ar^{n-1}$ . Above each term from  $ar$  to  $ar^{n-1}$ , a blue curved arrow points to the right, each labeled with the multiplication factor  $\times r$ , indicating the recursive relationship between consecutive terms. Below the sequence, the terms are re-labeled as  $a_1, a_2, a_3, \dots, a_n$  in a cursive script.
